Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 March 2000.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claim 28 teaches to the criteria by which the third software facility correlates software products. With respect to these criteria, five distinct species are enumerated in the dependent claims:

- A. Claim 29, teaching to the correlation of software usage over a time period.
- B. Claim 30, teaching to the correlation with contract expiration.
- C. Claim 31, teaching to the correlation of existing contracts and installed client platforms.
- D. Claim 32, teaching to the correlation of the locations of software products.
- E. Claim 33, teaching to the correlating of software products by product speed.

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claim 1 teaches to the linking data. With respect to the frequency of updating the linking data, three distinct species are enumerated in the dependent claims:

- A. Claims 11, 50, and 53, teaching to the dynamic continuous updating of linking data.

B. Claims 11, 51, and 55, teaching to the dynamic updating of the linking data in reaction to changes in the software product database.

C. Claims 49 and 54, teaching to the dynamic updating of the linking data on a periodic basis.

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Claim 42 teaches to a data acquisition system. With respect to the software acquisition tools by which data is acquired, three distinct species are enumerated in the dependent claims:

A. Claim 43, teaching to the use of an importing tool for acquiring software product data.

B. Claim 44, teaching to the use of a shared database for acquiring software product data.

C. Claim 45, teaching manual user entry for acquiring software product data.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-10, 12-28, 34-41, 46-49, 52, 56, and 57 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to the office of Ostrolenk Faber Gerb & Soffen on 24 November 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew E. Heneghan, whose telephone number is (703) 305-7727. The examiner can normally be reached on Monday-Thursday from 8:00 AM - 4:00 PM Eastern Time. The examiner can also be reached on alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Morse, can be reached on (703) 308-4789.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks
Washington, DC 20231

Or faxed to:
